## Skills Introduced this Month

### Shape fun

After reading "*The Biggest Christmas Tree Ever*" the teacher will show a small group a simple Christmas tree scene on a large piece of paper. Each of the objects in the scene is a definite shape; a triangular tree with a rectangular trunk, round ornaments, and square presents. The teacher will call out the names of the shapes and let the children take turns pointing to those shapes in the scene, they will then attempt to cut out these shapes and make a Christmas picture themselves.

### Thinking of Others

We will continue to teach the children of the importance of giving back to our local and global communities. The children will work on their chore ornaments and will get to hang them on our Giving Nest Giving Tree. For more information on this, please see the December Director's Newsletter.
